

## Valleoscuro Rosé

### D.O.P. Valles de Benavente

#### Varieties

100% Tempranillo.

#### Wine Type

Young rosé wine.

#### Analytical Parameters

Alcohol: 13.4% · Acidity: 5.97 g/l · Sugars: 3.08 g/l · Volatile Acidity: 0.17 g/l

#### Winemaking

Controlled mechanical harvesting from our own vineyards. After destemming, the grapes were macerated at 12°C for 2 hours, followed by free-run saignée fermentation in stainless steel tanks at 14°C.

#### Tasting Notes

Very pale pink colour with bluish highlights.

Very fresh, clean aromas, dominated by red fruits such as strawberry, with subtle notes of pear and peach.

On the palate it is light, fresh and very smooth. A delicate touch of spritz, so characteristic of our production area, combined with well-integrated acidity, results in a rounded and well-balanced wine.
